

### PRODUCT

Clear Polyethylene Terephthalate (PET) sheet.

### APPLICATION

Plastic packaging products.

### EXTRUSION CAPABILITIES

Gauge / Thickness	6 to 47 mil	
Typical Gauge Variation	+/-1%	[Typical observed values]
Width of Sheet	63 Inches	[Varies with gauge]
Core ID	6 Inches	[Standard]
Roll Outer Diameter	39 Inches	[Standard] [Custom ODs available]
Denest / Anti-block Treatment	Surface Silicone Coating Internal Anti-block Structure	[Standard] [Available]

### BARRIER PROPERTIES

Typical observed values

ASTM

Specific Gravity	1.33 g/cm <sup>3</sup>	D1503
Tensile Strength	8000 lb/in <sup>2</sup>	D882
Light Transmission	> 90 %	D1003
Thermoforming Temperatures	250° to 320°F	

All OCTAL material meets EU and FDA requirements for direct food contact.
